# Interim Report

George Kirby

October 29, 2025

# Contents

# 1 Abstract

This project investigates to use of machine learning techniques to model battery degredation over its lifetime; unlitmately throught model parameterisation and raw data regression.

# 2 Introduction

Provide background information here.

# 3 Methodology

Explain your methodology here.

# 4 Results

Present your results here.

# 5 Conclusion

Write your conclusion here.
